In Milk / In Calf dairy cattle sold through the dairy ring at £800 or less per head DO NOT carry the usual National Sales Conditions warranty

Maiden heifers stated to be sold for breeding purposes.

The **vendor** warrants a **maiden heifer** stated in the catalogue or at the time of sale to be sold for breeding purposes to be free from any malformation which would render the animal incapable of breeding. The warranty is a **5 day warranty** if the malformation is patent or a **6 month + 5 day warranty** if the malformation is latent.

If the **purchaser** proves a breach of warranty the **purchaser** may return the animal to the **vendor**. Notice of claim must be supported by a **veterinary surgeon's certificate**.

Cows or heifers sold as being in milk and/or in calf. The vendor warrants a dairy cow or heifer in calf and/or in milk:

- (a) To be correct in the udder and teats;
- (b) Not to be infected with **clinical mastitis**;
- (c) Not to suck any other animal or herself; and
- (d) To be **quiet to milk**.

The warranties in conditions (a) & (b) is an after sale warranty which shall run from the close of the day's sale or until the animal is removed from the sale premises, whichever is sooner. The warranty in conditions (c) & (d) is a **5+5 day warranty**.

Cleansing The **vendor** warrants that all newly calved **cows** and **heifers** have cleansed satisfactorily before the sale. This warranty is a **3 day warranty** in which any claim made by the **purchaser** must be supported by a **veterinary surgeon's certificate**. The **vendor** is obliged to pay for the cost of one wash out.

Cows or heifers sold as served or guaranteed in calf.

When an animal stated to have been served **less than 10 weeks** prior to the sale and is **pregnancy diagnosed positive**, this is given as **guidance only** and carries **no warranty**. If a cow or heifer has been positively diagnosed as **10 weeks or more in calf** at the time of sale and thereafter is proved to be not in-calf, and a **Veterinary Surgeon's certificate** to that effect is produced there is a **38 + 5 day warranty**.

Where a cow or heifer is sold as 'having run with a bull' no warranty as to the animal being **in calf** at the time of sale is given.

Breeding Stock bulls The **vendor** warrants that any bull 10 months or over sold as a stock bull is capable of and effective at natural service. This warranty is a **16 week warranty**.

Unless advised otherwise you will be bidding and buying under these Conditions and you will be obligated to abide by these Conditions and these Notice to Purchasers. The LAA Conditions of Sale are also displayed in Kivells market office. Clauses 12 to 19 inclusive relate mainly to the Purchaser. This catalogue may also contain reference to Warranties as defined by the LAA Conditions of Sale. Warranty issues will not be considered if payment in full has not been received.

Hilltown Foreword:

Mervyn, Malcolm and Mark are pleased to offer another selection of surplus animals from the Hilltown Herd.

As in all previous Draft Sales a wide selection of well-bred, diverse genetics are being made available from trouble free well established cow families founded by the vendors in the 1950's.

The herd is run on a simple system of paddock grazing through the summer and self-feed silage during the winter. Concentrates fed in the parlour based on the previous seven days yield average.

Current Herd Average. Oct 2024.

6195kgs 4.09%bf 3.33%ptn SCC 108

The selection includes 18 Freshly Calved Cows and Heifers, 23 In calf heifers, 32 Maiden Heifers and 2 Bulls.

The herd is individually bred to wide selection of old proven British sires and young bulls available in A.I . The best conformation and production cows are bred to proven bulls and a selection of sons are kept as herd sires and for semen collection.

Classifications,

Hilltown is one of the highest classified herds in the breed with 64 EX or Multiple EX's in the last 2 visits with numerous VG heifers. Animals sold at previous sales have also gone on to score EX in their current owners herds.

Herd Health

The herd is Vaccinated for BVD and Lepto. Is Checs BVD free accredited and tests negative for IBR and Johnes. All but the youngest animals who have only been running out from the buildings have had Clostridial vaccine Bravoxin 10.

No professional foot trimmers are employed, cows are only trimmed when needed and last Arla Roms there were no lame cows.

All animals in this sale are are full pedigree and eligible for showing.

Semen has been collected from both Hilltown Trailfinder and Hilltown Charisma on farm and they have passed all health tests and are confirmed to be fertile.

For more information or to view stock prior to sale then please contact Mark on 07801 822797.

DISPERSAL SALE – The following Dispersal will be sold in Guineas (£1.05)

**NJ & SN WILLIS
HILL FARM, KENNFORD, EXETER, DEVON, EX6 7HJ**

Kivells are delighted to have received instructions on behalf of NJ & SN Willis of Hill Farm, Kennford, Exeter to disperse their Autumn Calving herd of British Friesians which are being removed to Exeter Livestock Centre for convenience of sale on Friday 8th November.

The herd started in 1948 and the focus has always been to try and produce as much milk from forage as possible. The breeding policy has always been to try and breed a balanced type of cow, medium in size with good legs and feet and capable of producing milk from grass.

The herd is loose housed during the winter months and milked through a herringbone parlour. The cows graze grass through spring to autumn and are run on a simple system consisting of grass silage and fed concentrates in the parlour.

Herd Health

The herd is unvaccinated but monitored with no known cases of BVD, IBR, Lepto. The whole herd is Johnes screened with very low prevalence.

Annual Herd Average Approximately **7,000Kgs**

Latest Bulk Tank Recording **4.53%BF 3.37%PTN**

With whole herd SCC being a very impressive **cc62**

Auctioneers Comments

This is a genuine herd of cows which have very correct udders, legs and feet, they have been farmed on a very simple system and there is no doubt that these cows will go on and produce more milk on more intensive systems. With the whole consignment calved in the last three months this is a very attractive dispersal.

DISPERSAL SALE – The following Dispersal will be sold in Guineas (£1.05)
**C B JOHNS & PARTNERS
DUNWELL FARM, UGBOROUGH, IVYBRIDGE, DEVON, PL21 0HL**

Kivells are pleased to have received instructions from Peter and Cliff Johns of Dunwell farm, Ivybridge to disperse their herd of Dairy Cattle. The herd was first established in the early 1970's with predominately South Devons. In the 1980's British Friesians were introduced to great success. Peter joined the partnership in the early 2000's and has developed and managed the dairy herd until the present day.

The cows are managed on a simple system, milked twice daily in a herringbone parlour and grazed through the spring to autumn months. The cows are fed grass silage in the winter months with concentrate fed through the parlour.

The cows are cubicle housed and are not vaccinated but monitored with no known cases of BVD,IBR,Lepto. The whole herd is Johnes screened and all cows offered for sale have tested negative.

NMR Annual Herd Average: **7776Kgs**
 Latest Bulk Tank Recording **4.87%BF 3.60%PTN**
 Average Cell Count of cows in the sale: **92**

Auctioneers Comments:

This sale includes good quality, well managed, commercial Holstein Friesian cows and heifers from a genuine closed herd. The cows are medium-sized with very good udders, legs and feet. The cows are AI bred and have great potential to respond to different management systems. This herd has been very carefully managed by the Johns family and the cows are a true credit to them. Can we thank the Johns family for their instructions once again and wish them all the best for the future.
